

PYRFORD & THE 2011 CENSUS DATA

Some of the tables have been analysed to compare the data for the Pyrford Ward in relation to Woking BC, to the South-East of England and England as a whole. For each, the number of each category has been converted into a percentage. This allows distinctive characteristics to be identified.

For example, one table analyses families with dependent children, sub-divided by child age groups.

DEPENDENT CHILDREN

The Census shows that 38.1% of families have one or more dependent children. This compares to 44.4% in Woking, 42.4% in the SE and 43.1% in England as a whole. 61.9% of those in Pyrford were aged 0 – 4. The figures for Woking are 55.5%, for the SE, 57.6% and for England 56.9%. So it may be said that Pyrford has fewer dependent children, but with a higher percentage of young ones (0-4).
